You are an amazing man with a heart of gold working at God speed! Keep up the phenomenal work in the production of new innovative products infused with health-induced benefits! God bless!

Hi Norbert !!

Thanks so much for the email and especially for coming to the maritimes for another session!! Kenny was so very impressed with the information as he is a true believer of everything you shared... on the way home we decided that we were getting the wifi disconnected and getting a landline for the house.His biggest statement which he shared last night was..... I WANT TO WORK FOR THIS COMPANY ONE DAY! That to me is very powerful and i know that if there's any way that this can happen he will !!!Take good care for now!!
