

# Compliments on Norbert's Workshop

in Canada, Los Angeles, Florida

Hi Norbert!

This is Marianna Grant (from Halifax Conference...sat right up front). You did an awesome bit on the radio show!! My daughters 9 and 11 listened too. Hope they can come with me sometime to hear you speak. They really paid attention to what you were saying on the radio show.

By- the-way....my Mom really enjoyed you too. I know she was amazed by all your information. Keep up the good, positive work :)We are all benefitting from it and Thank You for doing what you do.

Sincerely

Marianna Grant

Hi Norbert

Got your message and looking forward to the drop box to arrive so i can better explain to others about the tools you have to offer and enhance those who need to know that there actually is help out there for healing and keeping healthy at the same time

God Bless

Hello Norbert

I really enjoyed your workshop. You made it very interesting. The time just flew by. It's apparent that you enjoy your work. I do hope that you will return to New-Brunswick, Canada soon. My friends and I will certainly go to your workshop. I know other people who would also attend.

All the best

Enjoyed your workshop, such an addition to Rene's work as well. We have lived it in treatment and now we are fortunate to be using it daily to live life more fully and eventually feeling our Chi in balance. Thanks for being you!

Cheers,

Jean & Diane
